Booker Paper Airplane

Materials Needed:

8½x11 paper

scissors

crayons

Directions:

1. Print out the Booker plane on 8½-by-11 inch paper or use plain paper. Fold the paper in half lengthwise and run thumbnail along the fold to crease it sharply. Unfold the paper and fold down the top corners as indicated by the arrows.

2. Fold the two edges toward the center line, as indicated.

3. Turn the plane 90 degrees as shown in figure. Fold air plane in half. Create a wing crease that begins at the nose as shown with the green line. Note that A=B.

4. Fold down the sides along the green line shown in the previous step.

5. Bend up the trailing edge of the wings for lift if it has a tendency to nose-dive.

6. Have fun!
